

Update available: **2.0.5** (current: 2.0.4)  
Run `npm install -g yo` to update.

Welcome to the  
SharePoint Client-side  
Solution Generator

React is one of the  
selectable Platforms  
for developing Webparts

Let's create a new SharePoint solution.

? What is your solution name? `spfx-check`

? Which baseline packages do you want to target for your component(s)? `SharePoint Online only (latest)`

? Where do you want to place the files? `Use the current folder`

Found npm version 3.10.10

? Do you want to allow the tenant admin the choice of being able to deploy the solution to all sites immediately without running any feature deployment or adding apps in sites? `No`

? Which type of client-side component to create? `WebPart`

Add new Web part to solution `spfx-check`.

? What is your Web part name? `HelloWorld`

? What is your Web part description? `HelloWorld description`

? Which framework would you like to use?

No JavaScript framework

> `React`

`Knockout`

# And what is a web part?

The screenshot displays a SharePoint Project web part interface. At the top, a navigation bar includes links for Newsfeed, SkyDrive, and Sites. Below this, the 'Project' section features an 'EDIT LINKS' button and a 'Project Summary' header. The main content area shows a project timeline with phases: Planning Phase (28/5 - 28/6) and Implementation Phase (28/6 - 28/7). The timeline includes tasks such as Client Meeting (28/5 - 4/6), Document (4/6 - 7/6), Feedback Review (14/6 - 21/6), Contracting (21/6 - 28/6), Site Preparation (30/6 - 6/7), Site Closure (6/7 - 13/7), and Construction (13/7 - 28/7). Two specific events are highlighted: Client Feedback (7/6 - 14/6) and Client Site Visit (28/6). Below the timeline, a section titled 'started with your site' offers various site management options: 'e your site.', 'Working on a deadline?', 'Add lists, libraries, and other apps.', 'What's your style?', 'Your site. Your brand.', and 'Keep email in context.' The bottom section includes a 'Newsfeed' area with a 'conversation' input field and a 'Documents' section with a 'new document or drag files here' button and a list of documents, including 'Project Mission'.

Project Summary

Planning Phase  
28/5 - 28/6

Implementation Phase  
28/6 - 28/7

Client Meeting  
28/5 - 4/6

Document  
4/6 - 7/6

Feedback Review  
14/6 - 21/6

Contracting  
21/6 - 28/6

Site Preparation  
30/6 - 6/7

Site Closure  
6/7 - 13/7

Construction  
13/7 - 28/7

Client Feedback  
7/6 - 14/6

Client Site Visit  
28/6
