And the client side part????

Connect-SPOService -Url https://{yourtenant}—admin.sharepoint.com
Get-SPOTenantCdnEnabled -CdnType Public
Get-SPOTenantCdnOrigins -CdnType Public
Get-SPOTenantCdnPolicies -CdnType Public

Set-SPOTenantCdnEnabled -CdnType Public

And how to prepare the App?

gulp build —ship
Gulp package-solution —ship
